

Atiyah Curmally

Senior Environmental Specialist, Environment, Social and Governance Department,
International Finance Corporation (IFC)

Atiyah's responsibilities include support to senior management on global sustainability issues and development of IFC's environmental and social risk management advisory services for IFC's financial markets and direct investment clients. Prior to this, she oversaw environmental and social investment support to IFC's Financial Markets, Funds and Short-term Finance Departments. Ms. Curmally has been with IFC for 8 years. Her previous work experience includes positions with private sector and non-profit institutions focused on infrastructure project finance and risk management for financial markets. Ms. Curmally has degrees in Environmental Policy and Economics from Brown University and the London School of Economics.
