

Ben Kwasnick

Founder, SPACs Research

Benjamin Kwasnick has over 15 years experience as a principal investor in US public equity markets, with a focus on SPACs, special situations, merger arbitrage, and other event-driven strategies. He is the founder of SPAC Research, an independent data service focused on US-listed Special Purpose Acquisition Companies. SPAC Research provides custom data solutions and analysis on the SPAC space, as well as a comprehensive data set and synopsis of all material events throughout each SPAC's life cycle.
